Discussion with Kootenai County Historical Preservation Commission about the plan to create a Historical Preservation Plan for the County. We were invited to come to their meetings which are at 3:30 every 3<sup>rd</sup> Wednesday. They gave us information on the survey they have prepared asking for help to get as many people as possible to take the survey on-line. We have the cards with the information to give out. They have a banner that they will loan us to put on the building which says "This building is 100 years old". We will continue to be in conversation via email. We agreed to look at the County and Coeur d' Alene comprehensive plan and compare them and work together with the County on their preservation plan.
